EDUCATION

Madan Mohan Malaviya University of Technology, Gorakhpur	2027
B.Tech in Computer Science and Engineering	CGPA: 8.05
G.S.A.S. Academy, Harraiya, Basti	2022
Board of Intermediate Education, Uttar Pradesh	Percentage: 79.4%
G.S.A.S. Academy, Harraiya, Basti	2020
Board of Secondary Education, Uttar Pradesh	Percentage: 87.5%

EXPERIENCE

Unessa Foundation (via Internshala)	March 2026
Artificial Intelligence Intern	Remote
• Worked on machine learning concepts including data preprocessing and model building. • Implemented classification and clustering algorithms using Python and Scikit-learn. • Performed feature engineering and model evaluation on structured datasets. • Gained practical exposure to real-world AI workflows and problem-solving.	

PROJECTS

- 1. Study Desk – Full Stack EdTech Platform | [Live Link](#) | [GitHub](#)**
 - Designed and developed a scalable MERN stack platform enabling course management, authentication, and student dashboards.
 - Implemented JWT-based authentication, OTP email verification, and role-based authorization improving security workflow.
 - Built reusable React components and optimized API interactions, reducing page load latency.
 - Developed RESTful backend services with Express.js and MongoDB handling structured course and user data.
 - Integrated cloud media storage and improved UI responsiveness using efficient state management.
- 2. Machine Learning Practice Projects**
 - Implemented clustering and classification models using Scikit-learn including Decision Trees and Agglomerative Clustering.
 - Built data visualization pipelines using Python and Matplotlib for model interpretation.
 - Performed preprocessing, feature engineering, and evaluation on structured datasets.

TECHNICAL SKILLS AND INTERESTS

Languages: C, C++, Python, JavaScript

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook

Frameworks: Flask, Django, NumPy, Pandas, Scikit-Learn, Matplotlib, TensorFlow

Cloud / Databases: MySQL, NoSQL, Render, REST API

Soft Skills: Problem Solving, Analytical Thinking, Time Management, Self-Learning

Coursework: Data Structures and Algorithms, Design and Analysis of Algorithms, Operating Systems, Database Management Systems, Machine Learning, Deep Learning

Areas of Interest: Competitive Programming, Backend Development, Machine Learning, Data Structures and Algorithms

ACHIEVEMENTS

- Solved 500+ Data Structures and Algorithms problems across competitive programming platforms.
- Strong problem-solving experience in arrays, graphs, dynamic programming, and greedy algorithms.
